Drunk Busters of America Donation to the Fond du Lac Police Department

Drunk Busters of America Founder and Owner Curt Kindschuh, recently donated four different drug and alcohol goggles along with a pedal cart, texting while driving DVD and activity mat for community presentations to the City of Fond du Lac Police Department .

In addition to Enforcement efforts, Officers give various community presentations about the consequences of alcohol and drug use. Crime Prevention Officer Erik Foster works with many community partners and organizations to mitigate these types of issues through education and prevention presentations. Additionally, he gives prevention presentations to student's K-12 through the Fond du Lac School District as well as the active DARE program at St. Mary's Springs Academy and Fond du Lac Boys and Girls Club.

Drunk Busters of America's donation will give a unique opportunity to enhance our alcohol abuse and education efforts here in the Fond du Lac community. The goggles donated simulate alcohol and drug impairment and are an evidence-based prevention tool used to educate people of all ages about the consequences of alcohol misuse and abuse. These tools will help create an engaging experience that will support and enhance our prevention efforts at the Fond du Lac Police Department.

Drunk Busters of America generously donated the goggle's, teaching accessories and pedal cart at a value of \$1,659. These donations will provide valuable lessons about impaired driving and traffic safety particularly to teens and young adults.
